SET-Plan Action 4 Joint Programming

What's next and how to finance it

- ETIP SNET working on a new vision and roadmap
- Joint Working Group with Implementation Working Groups of Action 3.1 Consumer Services, 3.2 Smart Cities, 4 Energy System, 5 Efficient Buildings
- Joint Programming Platform Smart Energy Systems going global with Mission Innovation
- next focus area on Digitalisation 2020
- to be transferred into Horizon Europe co-funded partnership on Energy Transition

Joint Programming Conference 2019

Smart Energy Systems (SET-Plan Action 4)

**Launch of the
Joint Call 2019**
on Energy Storage Solutions

**Project Result
Pitches**
& appraisal by expert panel

Matchmaking
for the Joint Call 2019

**Knowledge
Community
Meetings**
with Working Groups
and peer feedback

 ERA-Net Smart Energy Systems has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreements No. 64603 and No. 775970.

Namur, Belgium on October 7-9, 2019

Joint Programming Platform Smart Energy Systems Conference 2019					
	7 October	8 October		9 October	10 October
Morning	10:45-13:00 Associated Partners Meeting (on invitation)	8:45-13:00 NSCG Snet Meeting*	8:45-13:00 Matchmaking for the MICall2019 applicants & supporters	8:45-13:00 ERA-Net SES Family of Projects Meeting (project partners and invited guests)	
Lunchtime	13:00-14:00: Lunch				
Afternoon	14:00-16:00 Status Conference with presentation of project results	14:00-18:00 Knowledge Community Meeting & peer-to-peer feedback sessions		14:00-16:00 ERA-Net SES Family of Projects Meeting (continued)	Integrating the Energy Systems: Joint Meeting of SET-PLAN Working Groups: IWG 3.1, IWG 3.2, IWG 4 & IWG 5 (for IWG members and invited guests)
	16:00-18:00 European launch of the Joint Call 2019 for RDD projects (MICall19)			16:00-18:00 New focus initiative on Digitalisation of the energy system (on invitation)	
Evening	from 19:00 Social event with dinner speech (on invitation)	from 19:00 Working dinner with guided networking opportunities (tba)			

ERA-Net Smart Energy Systems has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreements No. 64603 and No. 775970.

Joint Call 2019: Storage Solutions - now open!

Next Webinar for Applicants:
November 26, 2019
13:00-14:00 CET

National Stakeholders Coordination Group

The **National Stakeholder Coordination Group (NSCG)** of the ETIP Smart Networks for the Energy Transition is a **sounding board and exchange platform for national R&I stakeholders in the area of smart energy systems and networks**, enabling them to contribute actively to the European [SET-Plan Action 4](#) and the implementation of its [Implementation Plan](#). The NSCG addresses *national R&I policy makers, R&I funding program managers, key research institutes* (typically members of EERA), *R&I platforms* (“Technology Platforms” or similar – typically consisting of grid operators, technology providers, R&D-institutes) and *experts from regulators*.

EDIT LINKS

This section of expera serves as a work space for the member states led activities in SET-Plan Action 4 – Energy Systems. Particularly it provides a repository and living document for the SET-Plan Steering Group Temporary Working Group for Action 4 (TWG A4) as well as for the National Stakeholder Coordination Group (NSCG). This page and all its sub-pages are only accessible for registered members of TWG A4 and NSCG. The maintenance of this workspace within expera is provided by the Austrian Ministry of Transport, Innovation and Technology (bmvit) in the course of its co-chairmanship of the TWG A4 and chairmanship of the NSCG.

Aktivitäten 2020

Welche (europäischen, internationalen) Themen sollen im kommenden Jahr national im Rahmen der Fokusgruppe behandelt werden?

Dabei geht es vorwiegend um

- Projektinhalte
- Europäische Strategien
- Internationale Aktivitäten
- ...?

Slido.com

Aktivitäten 2020

Ich sehe bei diesem Thema Bedarf an

- Information
- Austausch und Vernetzung

Dafür braucht es

- ein Webinar
- eine Veranstaltung
- informeller Austausch
- eine Diskussion (Roundtable)
- Exkursion
- Mailing, Newsletter

#M081

Anlagendefinition Speicher (Für alle Speicher - nicht nur Batterien, Thema Netznutzungsgebühren, Netzdienlichkeit,...)

Schnittstellen zwischen Energiesystemen und Plus-Energie-Quartieren.

Aktive und Passive Strategien: Nature Based Solution als Gebäudeoptimierung, in Synergie mit erneuerbarer Energie

Bioenergy for Industry

Wichtig aus meiner Sicht für eine solche Vernetzung und Synchronisation wie sie heute begonnen wurde wäre die Weitergabe von Informationen zu den diskutierten Beiträgen: -) Neuigkeiten aus Gremien und Arbeitsgruppen (ERA, ETIP, Eric, etc. -) Trends in Österreich, international -) lead Projekte, neue Projekideen Das Ganze am besten cluster und verteilen, etc.

Timeline 2020 – Vernetzung, Austausch, Information Energiesysteme und -netze
