Advanced Motor Fuels

#4/10 – ENGINE TECHNOLOGY IN AIRCRAFT

April 29th, 2026 03:30 – 05:30 PM CEST

This free online seminar will highlight recent research on status and developments of engine technology in aircraft using sustainable aviation fuels.

JESPER SCHRAMM (DTU, AMF TCP)
Moderation of this seminar

CHONG CHENG (DTU)
Engine Performance and Emission
Characteristics of HEFA, FT-SPK, and ATJ-SPK
Sustainable Aviation Fuels

DEBOLINA DASGUPTA (ARGONNE)
Assessing fuel property impacts on combustor
performance for SAF

CARSTEN GACHOT (TU VIENNA)
Tribology in a nutshell - From Helicopters to
human implants and beyond
