

IEA Bioenergy

IEA Bioenergy Conference 2012

November 13 – 15, 2012
Vienna University of Technology, Austria

About IEA Bioenergy

IEA Bioenergy is an organization set up in 1978 by the International Energy Agency (IEA) as one of the first Implementing Agreements aiming to improve cooperation and information exchange between countries that have national programmes in bioenergy research. 23 countries plus the European Commission are currently participating. IEA Bioenergy's vision is to achieve a substantial bioenergy contribution to future global energy supply by accelerating the production and use of environmentally sound, socially accepted and cost-competitive bioenergy.

IEA Bioenergy is a unique organisation able to demonstrate the most recent and best state of the art of bioenergy and the future development of the technologies. IEA Bioenergy is a perfect link between RD & D, deployment and national politics.

About the Conference

The IEA Bioenergy Conference 2012 will provide to stakeholders in R&D, industry and policy an insight into the recent research and market developments in bioenergy. The conference includes all topics dealt with by IEA Bioenergy as well as by partner organizations like FAO, GBEP and UNDP.

Presentations will address all stages in bioenergy systems: from growth of biomass, to conversion to energy carriers and, to use for energy services. Cross cutting topics like sustainability (GHG emissions), socio-economy and trade will also be discussed. Policy makers will benefit from the latest conclusions on policy recommendations based on a global scientific energy technology network.

Participants will be presented the latest information on promising bioenergy technologies in the stimulating and enjoyable surroundings of the Vienna University of Technology. A pleasant social programme also provides opportunities for relaxation and networking.

Social Programme

A social programme for networking and relaxation beside the conference will be provided. Information will be available in later announcements and on the webpage.

Technical Excursions

During the IEA Bioenergy Conference 2012 half and full day excursions will be offered to R&D as well as industrial facilities in and around Vienna representing the Austrian efforts in developing the use of bioenergy.

Conference Venue – Vienna University of Technology

Vienna, the capital of Austria, lies in the heart of Europe. It is one of Europe's most fascinating cities with a rich history, countless cultural attractions, excellent infrastructure, and reasonable living costs. In 2011, Vienna was rated as the world's most liveable city for the third year in a row.

The Vienna University of Technology (TU Vienna) is located in the centre of Vienna. Founded in 1815, TU Vienna has a long tradition of being at the leading edge of scientific research and education. TU Vienna is among the most successful technical universities in Europe and is Austria's largest scientific-technical research and educational institution.

Registration & Fees

Regular Fee	450 Euro
Students Fee	350 Euro

The fee includes the participation in all lectures and presentations, coffee breaks, and lunch on both conference days (13.–14.11.2012) as well as a conference package (proceedings, programme, etc.) and access to the internal area of the IEA Bioenergy Conference 2012 webpage. In this area you will have access to the electronic (pdf) versions of the presentations and other material after the event.

Social programme and technical excursions are additional events and are not included in the registration fee.

Please note that the registration deadline is 31 October 2012. Registration after this deadline is only possible at the conference desk. The onsite conference fee is € 500,-.
