IEA Bioenergy Task 29 International Expert Workshop Final Announcement

14th – 16th May 2007
Bregenz/ Austria

IEA

The Austrian Federal Ministry of Transport, Innovation and Technology (BMVIT) together with Land Vorarlberg and Energieinstitut Vorarlberg is hosting this international expert workshop within the framework of Austria's participation in IEA Bioenergy Task 29. International research-cooperations like this are given particular importance in the Austrian strategy finding process ENERGY 2050, which aims at developing long-term strategies and measures for Austria's future energy research along with adequate research goals.

IEA Bioenergy is an international, collaborative research programme on bioenergy research and utilisation (www.ieabioenergy.com). The primary goal of IEA Bioenergy Task 29 ("Socio-Economic Drivers in Implementing Bioenergy Projects") is to promote the use of biomass for energy in the participating countries. For more detailed information on the Task, see www.iea-bioenergy-task29.hr as well as the Task 29 Educational Website about Biomass and Bioenergy at www.aboutbioenergy.info.

The workshop represents a regular event of Task 29. It provides an opportunity for specialists and non-specialists alike to learn and participate in an action focused on understanding the complex social and economic interactions of bioenergy and community.

In particular it offers an opportunity to:

- > Compare and contrast different approaches taken to local, regional and cross-boundary partnership in partner countries
- > Learn from Best Practice (including invited papers)
- > Hear reports from completed, ongoing and planned projects
- > Visit targeted projects and community actions during a study tour

Biomass Supply Issues and Solutions

(International Expert Workshop in the Context of IEA Bioenergy Task 29)

Altogether, the workshop consists of several technical sessions, meetings, study tours and social events as follows:

Sunday, 13th May

Arrival in Bregenz, Optional social programme
(visits of local attractions - more on www.vorarlberg-tourism.at)

18.00 Meeting of National Team Leaders; Welcome Drink

Monday, 14th May

Task 29 Workshop at Hotel Schwärzler, Bregenz

9.00 – 12.00 Technical Session I
> Welcome by BMVIT, Land Vorarlberg and Energieinstitut Vorarlberg
> Focus on biomass supply

14.00 – 17.00 Technical Session II
> Focus on other socio-economic issues

17.30 – 19.00 Task 29 Business Session
> Work Programme for 2007
> New activities and proposals
> Future meetings

Study tour - Tuesday, 15th May (whole day), Wednesday 16th May (half day)

For details see study tour folder.
